DensityUSA

ANTI-INTRUSION FOGGING SECURITY SYSTEMS

Intruders can't steal what they can't see...

Density Fogging Systems add a new, highly effective element to your security arsenal by offering instant protection to deter theft. When a potential intruder activates the Density Fogging System, it immediately begins filling the area with a thermally generated white fog, creating a near zero-visibility environment which inhibits intruders from seeing what they want to steal!

Deter Theft Quickly

Remote Cloud Control

Zero Visibility in Seconds

People & Pet Safe

Why DensityUSA?

Thefts are on the rise. Looting, break-in's, smash-n-grabs. Enhance your current passive system with **ACTIVE PROTECTION** from **DensityUSA Dry Fogging Systems**.

Actively protect your inventory and valuables with dry dense fog. No residue, perfectly safe for humans, pets and electronics. Ties directly into your existing alarm systems in most cases.

UPGRADE NOW TO
ACTIVE PROTECTION!
